

5. NOTICES OF MOTION

The following Notice of Motion was submitted by Helene Mautner.

That the Spreydon/Heathcote Community Board requests that the Council adopt a building demolition policy for Council owned properties so that:

- a) where possible, buildings are deconstructed 'plank by plank' rather than bulldozed in order to preserve building materials and to reduce the amount of waste going to landfill;
- b) and in line with the Council's existing sustainability policy, that recovered building materials are recycled and/or used as raw materials;
- c) and that the Council consider what incentives and regulations may be used to encourage the use of recycled building materials in the rebuild.
