

4. SALTAIRE STREET - A LIVING STREET

The Living Streets Advocate informed the Board of the feedback received as a result of the release of a publicity brochure on the Saltaire Street Living Street proposal, seeking wider community comment. The Board **decided:**

1. That the information be received.
2. To acknowledge the value of Saltaire Street for accessibility by North New Brighton residents.
3. That the intersection proposal for Marriotts Road/Saltaire Street be designed to safely carry two-way traffic.
4. That traffic calming measures be designed within Saltaire Street to calm through traffic speed and to encourage the use of alternative routes.
5. That Saltaire Street residents and the wider community be consulted regarding the proposed traffic calming measures.
6. That the word “significantly” be removed from the first objective for the Saltaire Street Living Street proposal, which is to read: “To reduce the volume of through traffic”.
7. That a revised plan for the Saltaire Street Living Street proposal be brought back to the Board before the plan is sent out for wider consultation.
