

#### 4. RIVERSIDE PLANTING

The Greenspace Manager requested the Board to select two key areas in the Burwood/Pegasus area for a review of riverside planting. The Board **decided**:

1. To choose Amelia Rogers Reserve and Blighs Garden as sites of riparian planting in the area, for review.
2. That the criteria for reviewing the sites be endorsed.
3. To request the Greenspace Unit, in consultation with the Travis Wetland Trust, to consider the loss of vistas of the wetland as a result of the growth of plantings.
4. To request the Greenspace Unit to provide an update to the Board when progress has been made with the eradication of yellow flag irises in the Avon River.

[Note: Chrissie Williams recorded her vote against clause 3 of the decision.]
