

## 2. RIVERSIDE PLANTING

The Board considered a report on a proposal to assess riparian planting and **decided:**

1. To identify the following sites of riparian planting for review:
  - (i) Avon River – south side from Helmores Lane Bridge to Carlton Mill Bridge (supporting the concerns of the Fendalton/Waimairi Community Board).
  - (ii) Heathcote River – section in Clarendon Terrace opposite numbers 107 to 139.
  - (iii) Avon River – Avonside Drive, from Fitzgerald Avenue to the junction with Linwood Avenue (plantings have potential to affect views and the existing willows).
  - (iv) Heathcote River – section in Richardson Terrace from number 80 to Wildberry Street.
  - (v) Heathcote River – Ferry Road section from Tunnel roundabout to number 950 Ferry Road.
2. That priority be given to these areas in the order in which they are ranked above, with (i) being highest priority.
3. To endorse the criteria for reviewing the sites with the addition that the heritage value of the sites be considered.
