

## 12. COTTESMORE CLOSE – REVIEW OF PARKING RESTRICTIONS

The Traffic Engineer (Community) presented a report reviewing the parking restrictions in Cottesmore Close installed in January 2003.

The review had taken the form of a “Review of Work” questionnaire and a vehicle movement survey, the results of which were detailed in the officer’s accompanying report.

The Board **resolved** that the parking restrictions and revocations set out in recommendations 1, 2, 3 and 4 inclusive, of the Traffic Engineer’s (Community) report be approved.

(Note: Sally Buck declared an interest in this item and retired from the discussion and voting thereon.)
