

## 1. DEPUTATION BY APPOINTMENT

### MARINE PARADE SCULPTURE PARK

**Bon Suter, Donald Gibson and Marie Bone** were in attendance in support of the proposed Marine Parade Sculpture Garden enhancement plan. The deputation explained that the sculpture garden had been established to enable people with disabilities to work outdoors on their sculptures and socialise with others. Donald Gibson, a deaf and blind sculptor, was an original participant and it was stated that the quality of his life had been improved profoundly through this involvement. In relation to the proposed enhancement plan, the deputation suggested additional seating and wheelchair access be incorporated.

The Board's decision is recorded under Part C, clause 7 of this report.
