

3. DEPUTATIONS BY APPOINTMENT

(b) Mr Ray Craig, Shirley Intermediate School

Mr Ray Craig spoke to the Board regarding his concern about the delay in the footpath widening and boundary enhancement outside the Shirley Intermediate School.

Mr Craig stated that the footpath outside the school was unsafe and remained incomplete in terms of the works approved for Shirley Road and the Marshlands Road intersection that were officially completed some years ago.

Josie Schroder (Urban Planner, Christchurch City Council) informed the Board that the delay was largely attributable to difficulties transferring ownership of a one metre wide strip of land from the Crown to the Council.

In **receiving** the deputation, the Board sought a further report at the next Community Board meeting, to be held on 9 June 2004.
