

## 9. PAPANUI DOMAIN – TOILET REPLACEMENT

The Board received a report on the proposed public toilet replacement at Papanui Domain, following consultation with local residents and sports groups.

The Greenspace Unit had scheduled the replacement of the existing toilets in the current financial year. In August 2003 the Board had agreed to a plan for the replacement toilets to be constructed on the existing Papanui Boxing Club building [which is owned by the Council, and leased to the club]. The community feedback indicated a high level of support for this proposal.

The Board **resolved**:

1. To approve the change of location of the proposed toilet facilities to the south end of the boxing clubrooms.
2. That the proposed plan for replacement public toilet facilities be approved for construction.
3. That a letter of special thanks be sent to Janine Bartlett.
