

8. SUMMER EVENTS OVERVIEW 2003/04

The Board received a report on the summer events coordinated by the Christchurch City Council Community and Recreation, Recreation and Arts Team in the Shirley/Papanui area over the summer period, October 2003 – March 2004.

Four larger scale events were held, funded by the Board, with contributions and assistance from local community groups. Event planning and management was undertaken by local planning committees. Almost all of the event planning committees sought to give their event a strong focus on promoting healthy lifestyles. The continued popularity of these community events demonstrates their value to local residents and their communities.

The Board **resolved:**

1. That the information be received.
2. That the Board allocate a further \$4,000 from its 2004/2005 Discretionary Funds to allow a total of \$12,000 to be utilised for the provision of Children's Day at the Groynes 2004.
3. That consideration should be given to ensuring that these events did not clash with school sports and competitive summer sports.
