

## 18. ADDITIONAL CHARGES UNDER THE TRADE WASTE BYLAW

The Committee considered this report in conjunction with the deputations from the Canterbury Manufacturers Association and as recorded in the report on that deputation **decided** to defer consideration of this matter to a later date. It requested that an additional report be provided to the June 2004 meeting of the Committee giving a detailed legal opinion on the Council's requirement to phase out the domestic equivalent allowance and on the implications of implementing the phase-out of the allowance over a six-year period.
