

## 6. GREENSPACE CAPITAL PROGRAMME 2003/04 – END OF YEAR REPORT

The Board **received** information on the end of year position regarding the Greenspace Unit's capital projects undertaken in the Fendalton/Waimairi area during the 2003/04 financial year.

Some concern was expressed regarding the “out of scale” size of the pergola recently erected at the Avice Hill Reserve, and the visually ineffective results of the underplantings carried out as part of last year's reconstruction of Fendalton Road.
