

7. BIOBLITZ HAGLEY PARK/BOTANIC GARDENS

The Committee considered a report from Judy Grindell, Landcare Research, Lincoln, David Given, Botanical Services Curator, and Kelvin McMillan, Parks and Waterways Planner, outlining a proposal to host a Bioblitz in Hagley Park and the Botanic Gardens in April 2005.

Kelvin McMillan attended and explained that a bioblitz is a scientific race against time. The aim being to record as many species of plants, animals and fungi as is possible in a 24 hour survey on a designated site.

The Committee **decided:**

1. To receive the information.
2. To invite the public to visit this project.
