

## 21. UNDERGROUNDING NARROW STREETS

The Committee considered a report from the Chairman, Councillor Denis O'Rourke advising of his attendance at a recent meeting of the Moa Resident's Group at which the topic of undergrounding in narrow streets was discussed.

A detailed possible priority list and basis for prioritising streets provided by the Resident's Group was attached to the report and the Committee **decided**:

1. That the information be received.
2. That staff prepare a report on:
  - (a) The priorities as identified in the report.
  - (b) Criteria and process including integration with the kerb and channel programme.
