

2. SUMMIT ROAD MISUSE

The Board **received** an update from Inspector John Doyle, Area Commander of the Southern Area, Senior Sergeant Rob Patterson and Sub Area Supervisor Peter Laloli regarding the current misuse of the Summit Road area.

It was noted that noise levels are significant, owing to the number of cars involved (200-300), together with the current speed limit being inappropriate for the Summit Road.

A group of Council staff had met to work on an action plan to address problems on the Summit Road, and it was envisaged that Police representatives would become part of that working party in the near future.

The Police also provided a report updating the Board on crime statistics in the Spreydon/Heathcote community for the period up to 31 December 2004.
