

2. RESIDENTS' ASSOCIATIONS

Derek Dean, from the Dallington Residents' Association, was in attendance to outline the group's activities. Each residents' group is invited to do this in rotation.

Derek Dean highlighted issues of concern for the residents' association. In particular he asked that improvements to the Fleete Street/New Brighton Road intersection be investigated and that the boundaries of residents' associations around Porritt Park be reviewed. He also asked for a progress update on the proposed pathway around Locksley Avenue. The Board **decided** to forward these issues to officers for consideration.
