

1. FENDALTON LIBRARY – PROPOSED PARKING MANAGEMENT

The Board's Works, Traffic and Environment Committee had considered a report from the Transport and City Streets Unit seeking approval for the installation of kerbside parking limit lines in Jeffreys Road and Clyde Road and the provision of no stopping restrictions nearby in Jeffreys Road.

The Committee was advised that with the proposal to extend the opening hours of the Fendalton Library by way of a resource consent hearing, residents had raised concerns regarding potential increases in parking related issues in the immediate vicinity of the library and service centre building.

Clause 9.4 (Part C) of this report records decisions made by the Committee under delegated authority for new parking restrictions and consequential revocations.

The installation of the following proposed kerbside parking limit lines is supported by the Board for adoption by the Council.

Board Recommendation:

- (i) That kerbside parking limit lines be installed at vehicle entrances on the northern side of Jeffreys Road between Clyde Road and Chepstow Avenue.
- (ii) That kerbside parking limit lines be installed at the vehicle entrances of 184-188 Clyde Road.
