

### 3. PROPOSED NEW ROAD NAMES AND RIGHT OF WAY NAMES

The Board was in receipt of a request from the Subdivisions Officer to approve two new road names and two new right-of-way names.

In discussion it was agreed that the suggested name "Stowe Drive" could lead to confusion with an existing right of way "Stour Lane". At the recent National Community Board Conference a paper was received which discussed issues around emergency services and possible confusion of like-for-like names within local authority areas.

In respect of the request for names in the Worsley's Road/Pentonville Close subdivision members were also concerned about the possibility of similar confusion and it was decided to seek further clarification from the reporting officer.

The Board therefore **decided** to seek confirmation that the recommended names would not create confusion, and request that future reports include confirmation that local emergency services had agreed to the names proposed.
