

7. DOG PARK TREE REMOVAL - HORSESHOE LAKE

The Parks and Waterways Area Advocate (Burwood/Pegasus) sought the Board's approval for the removal of six pine trees and four poplar trees at Horseshoe Lake Reserve dog park.

The Board **resolved** to approve Option B as detailed in the report, to undertake tree removal and a replacement planting programme for the six pine trees on the eastern side of the dog park in order to meet residents' requirements of a 70 metre buffer zone, and to remove the identified poplar trees to create adequate vision for traffic.
