

8. TREE REMOVAL – 44 BAY VIEW ROAD, MONCKS BAY

The Board considered a report from Graham Clark, Arborist, Transport and Greenspace Unit, seeking approval for the removal of a large red flowering gum tree on the berm outside 44 Bay View Road. Removal had been sought by the new property owners to allow for a new vehicle crossing.

Removal of the tree was recommended in view of its serious interference with overhead powerlines.

The Board **decided** to defer consideration of this item until after a site visit on 30 October 2006, and requested that no action be taken in the meantime. In addition it was agreed that the Board site visit to Ferrymead scheduled on that day commence at the earlier time of 1.30 pm to allow a visit to this street.
