

#### 4. DEPUTATIONS BY APPOINTMENT

Mr Norman Grosser of 67 Hay Street attended the meeting to express his concern at the loss of parking outside his residence at 67 Hay Street as part of the Keighleys Road and McGregors Road safety improvement work.

Mr Grosser advised that he did not consider a pedestrian traffic island was required at this point in the road as most school children crossed by the cemetery. He confirmed that he would like to see on-street car parking retained outside his residence for visitors, especially in view of his limited on-site parking and commented that he felt the loss of on-street car parking would affect the value of his property.

The deputation from Mr Grosser was considered in association with the report on this topic.
