

9. JUNIOR NEIGHBOURHOOD SUPPORT

The Board considered a report from Claire Milne, Community Development Adviser, providing a report on an application for funding from the Board's 2006/07 discretionary fund from Neighbourhood Support Canterbury.

An amount of \$5,000 was sought to support the introduction of the Junior Neighbourhood Support programme at St Annes and Phillipstown primary schools in the Hagley/Ferrymead Ward.

The Board considered the application and noted that it had previously declined an application for this project (although not school specific at that time) and referred it to the Metropolitan Funding Subcommittee for consideration as a metropolitan wide service. The Metropolitan Funding Subcommittee had subsequently declined the request.

After discussion and taking into account the information supplied in the report the Board **resolved** to adopt the staff recommendation and decline the request for funding assistance.
