

7. NORTH BURWOOD PARK PLAYGROUND UPGRADE

The Consultation Leader (Greenspace) requested the Board to approve the concept plan for the North New Brighton Park Playground Upgrade, and also to grant approval for staff to proceed with the detailed design and construction of the playground upgrade. The Board was advised that the equipment, including the space ball, used in the playground has been audited for safety and met the standards required.

The Board **resolved** to approve the North Burwood Park playground upgrade in principle, but, the plan not be implemented until the issues concerning the accessways to the park has been resolved to the satisfaction of the Board.
