13.3. NAMING PROCEDURE FOR STYX CATCHMENT

The Board **resolved** to support the following Naming Procedure in principle, subject to further public consultation, community and Council input:

The following naming procedure applies only to the Styx catchment and is in addition to the Christchurch Code Of Practice for Naming Reserves and Facilities.

- (i) *The Maori name and the European name to be used as appropriate.*
- (ii) *Names will be given to:*
 - *natural features that are iconic and valued by the community (eg waterways, springs, ponds, areas of bush).*
 - *cultural features that assist in people's appreciation and navigation of the Styx locality (eg walkways, landmarks).*
 - *sites where specific activities occur (eg pa harakeke).*
- (iii) *New reserves alongside waterways in the Styx catchment be named as follows:*

Name of waterway + word for local iconic feature or value + 'conservation' + 'reserve'

An example of this type of approach is:

Styx Mill Conservation Reserve

Exceptions may occur where there is another particular value that needs to be recognised and/or preserved.

- (iv) *That one name, or alternatively a European and Maori name, be associated for each reserve that is clearly defined by a legible landscape boundary that is easily understood by the local and wider community.*
- (v) *Artworks to be named by the artist.*
- (vi) *Naming rights will be allowed in exceptional circumstances.*
