

2. RESIDENTS' ASSOCIATION

2.1 PARKLANDS RESIDENTS' ASSOCIATION

Mr Greg Morehouse advised the Board of the Association's current operational issues owing to the loss of several long serving committee members and of the struggle to recruit replacements.

Some initiatives to address the present situation were being explored including a dialogue with other residents' groups in this area of the ward.

Members noted that residents' groups elsewhere in the city were facing similar issues and that this was a key matter for the Council to consider as part of the current review of the residents' group policy.

The Chairperson thanked Mr Morehouse for addressing the Board.

The Board **agreed** to ask the Community Engagement Adviser to arrange a meeting of the residents' groups in the north east area of the ward along with input from Board members, to discuss a way forward in relation to the points highlighted and to consider how best to deal with matters of common interest including the sharing of resources to ease the workload on those community volunteers involved.
