

5. BRIEFINGS

5.1 Templeton Pool

John Filsell, Manager Recreation and Sports Unit, spoke to the Board regarding its request for information about a possible extension to the summer hours of Templeton Pool and possible Board funding for this purpose. This issue was initially raised during a deputation from the Templeton Residents Association to the Board meeting on 10 July 2007.

John Filsell identified a number of initiatives for involving the local community with the running of the pool and programmes at the pool. However, he advised that staff did not support an extension to the summer hours of the pool or the Board committing funding for this purpose.

5.2 Healthy Environment Strategies

Kelvin McMillan, Policy and Planning Team, Strategic Support Unit, provided an update to the Board on the range of strategies being developed as part of the Council's Healthy Environment programme.
