

**11. CONSULTATION ON DRAFT REGIONAL POLICY STATEMENT CHAPTERS ON WASTE MINIMISATION AND MANAGEMENT, CONTAMINATED LAND AND HAZARDOUS SUBSTANCES**

A report from the Policy Analyst – Strategy and Planning Group provided an overview of the issues arising in the draft chapters of the Canterbury Regional Policy Statement (CRPS), currently being reviewed by Environment Canterbury and sought to gain the Committee's support on recommendations of feedback to Environment Canterbury with regard to the draft chapters on Waste Minimisation and Management, Contaminated Land and Hazardous Substances.

The Committee **decided**, in view of time constraints, to hold the report over to its October meeting.
