

CHRISTCHURCH CITY COUNCIL

Election of TWO (2) Members of the Wairewa Subdivision of the Akaroa/Wairewa Community Board

Bryan MORGAN

Independent

I am seeking re-election as your representative for Wairewa . The coming 3 year term will see some projects that have been just wishes and words for many years finally show a benefit for us Wairewa residents.

I have great faith in the systems that the council staff now use in consultation to deliver well balanced outcomes for the community.

A good example is the Birdlings Flat playground and toilet upgrade.

Little River is scheduled for work on the Railtrail entrance to town, railyard landscaping, township water and sewer, and playground and fitness trail upgrades in the domain.

The Community Board recently granted the school support group request for funds to ensure the school pool stays open.

As all things happen slowly with council projects, I would like to be around the board table to ensure lessons learned by the people of this district are not overlooked by city planners.
