

CHRISTCHURCH CITY COUNCIL

Election of FIVE (5) Members of the Lyttelton/Mt Herbert Community Board

Chris TWEMLOW

Community - First

Having lived throughout New Zealand my family and I were quick to appreciate Lyttelton Harbour as a special environment with strong, supportive communities, a great place to raise a family. I began to get active, helping with the Lyttelton Information Centre, assisting with the Project Port Lyttelton Website then setting up the Lyttelton Timebank, as a result I am now engaged in a range of local issues.

I will be a creative representative with a passion for local democracy. I have the skill and energy to lobby local government and I am a team player looking forward to a more engaging Community Board. Whether the Harbour Basin road widening programme, appropriate port access, Diamond Harbour child care or elder support, I will concentrate on our social needs and promote development while putting community first. This is how I wish to participate in building our economy and protecting our beautiful harbour.
