

CHRISTCHURCH CITY COUNCIL

Election of SEVEN (7) Members of the Canterbury District Health Board

Helen MCLEOD

Independent Citizens

With more than 30 years working in health, Helen knows first hand the frustrations of dedicated health professionals in hospitals (including Christchurch, Ashburton) and the community, here, throughout New Zealand and overseas. She has also experienced the demands placed on support services eg for the elderly, Alzheimer's, financially disadvantaged and in rural areas.

Helen is a medical scientist with strong business skills (MBA), international management experience (Medlab, Beckman, CECC), governance training and board experience (CCMAU, Institute of Directors executive, Canterbury Medical Research Foundation, Zonta). Having raised three children and contributed to the community (PTAs, Playcentre, City Mission), Helen now offers her experience, expertise, compassion and common sense to serve in improving our health service for everyone.

Helen is committed to quality practices, adequate resources for areas such as emergency and childbirth, and removing barriers preventing health workers from caring for our health. Vote Helen for less bureaucracy and more health.

Conflict of Interest Statement

I state in good faith that to the best of my knowledge and belief, as at the date of my consenting to nomination that I have the following conflict(s) of interest with the Canterbury District Health Board:

Canterbury Medical Research Foundation - (Executive) which provides Parkinson's services to CDHB.

Medlab South, Business Development Manager. When elected I will resign from my employment here.

Member, St George's Hospital Inc. Society. When elected I will resign from this membership.

My brother's partner is the Operations Manager at Burwood Hospital.

I state in good faith that to the best of my knowledge and belief, as at the date of my consenting to nomination that I do not believe that conflict(s) of interest with the Canterbury District Health Board are likely to arise in the future.
