

CHRISTCHURCH CITY COUNCIL

Election of FIVE (5) Members of the Shirley/Papanui Community Board

John W MARSHALL

Christchurch 2021

I am enthusiastic about making our communities safe and pleasant places to live, believing that it is critical to retain Christchurch's character as it expands. Our open spaces and existing communities should not become thoroughfares to newer suburbs. Wherever we live there should be equal access to public facilities, and local travel must be gridlock-free. Public transport must have priority, and be set up to be

the best choice for all users.

I demand the return of decision-making to our communities and that the Council responds to their needs. I have a PhD in science, with long experience of developing solutions for government and business, and have served on two school boards while my children were growing up. I am good at solving problems, enjoy working with people, can relate to people from all walks of life, and am known for bringing people and solutions together.
