

CHRISTCHURCH CITY COUNCIL

Election of SEVEN (7) Members of the Canterbury District Health Board

Laurence MALCOLM

Health 2021

I'm a doctor and present Board member. My priorities are improving access to primary care, reducing waiting lists, improving clinical quality and promoting better relationships between doctors and management. During my time as a Board member we have had many successes in improving your health services, despite a media focus on bad news. We now have a fairer share of health funding for Canterbury and

better value from the money allocated.

I'm a former Professor of Community Health with a wide national and international experience in health and medical services. I've served on many local, national and international committees, including for the World Health Organisation. As a current member of the Executive of Age Concern Canterbury I have a special interest in the health care of the elderly. I'm keen to use my extensive experience to build on our Board's many achievements.

Conflict of Interest Statement

I state in good faith that to the best of my knowledge and belief, as at the date of my consenting to nomination that I have the following potential conflict(s) of interest with the Canterbury District Health Board:

Director of Aotearoa Health Ltd which has a contracting relationship with health agencies but not the Canterbury District Health Board.

Member of executive committee of Age Concern, Canterbury. No expected conflicts of interest.

I state in good faith that to the best of my knowledge and belief, as at the date of my consenting to nomination that I do not believe that conflict(s) of interest with the Canterbury District Health Board are likely to arise in the future other than in relation to the organisations listed in previous page - namely

Aotearoa Health and contract with Partnership Health - as Council and Executive member of Age Concern Canterbury.
