

CHRISTCHURCH CITY COUNCIL

Election of FIVE (5) Members of the Burwood/Pegasus Community Board

Linda STEWART

Independent

I love our natural areas with a passion and raised my family here.

My commitment to residents is to work with energy, innovation and “free” from the block-voting of party politics that often dis-empowered the public consultation process.

I will utilise my 12+ years experience in these processes to improve and develop our district they way we want it to be.

My involvements include: Representing residents on the Ocean Outfall Project, advocating “long-term holistic environmental outcomes” for estuary and beach water quality. Currently the Ocean Outfall Liaison Committee. Volunteer business mentor. Improving disability inclusion in the community, operating low-cost fitness activity.

Important values:

Improved flood protection in tide-effected residential areas.

Heritage/character uniqueness including our beautiful reserves.

Supporting new enterprise in our community.

I have a professional background in project management with qualifications and passion for business development, facilitating change. Accredited to New Zealand Business Mentors. Phone 388 9617 landnotes@paradise.net.nz
