Cheviot St needs to be cleaned up. The use of an electronic cruelty machine which is some kind of ray which can pass thru walls and sting people, needs house to house searches by the police to locate the machine.

There are too many strange cars besetting properties, cars have been sabotaged, houses burgled and a likely rape - I had to intervene with the axe, but he got his own way in the

end. The small unmarked noisy plane which is constantly disturbing the peace in Spreydon-Cashmere should be banned.
