

CHRISTCHURCH CITY COUNCIL

Election of Mayor

Michael HANSEN

Economic Euthenics

The main issue this election is the treatment of mayoral 3rd party candidates, the use of a type of ray which can pass thru walls and sting, slow cook and annoy candidates to try to tireout and upset them before nomination day, should not be happening during the time of a Labour Govt. The use of an offensive tingle ray at meetings, and looking inside candidates houses and stinging them on the head with cellphone-lasers is disgracefull, there is no co-operation from the Labour Govt police, Remember, it is not compulsory to vote, but if you do vote, vote for me.
