I have lived in North New Brighton my entire life and would not live anywhere else. I am a trained Engineer and work for the University of Canterbury as a Laboratory Technician in the Civil Engineering Department. My work gives me sound knowledge, skills and expertise in the fields of surveying, project management, structural, environmental and highway traffic engineering. I am Co-ordinator for the Ascot Freeville

Residents Group which I am very proud to be associated with and the many projects that we as a group have achieved. I am lead community representative for the QEII 10 year concept plan and a Trustee to P.E.E.E.P's. I am a member of the Management Committee for the Christchurch Combined Residents Association, member of the RSA and Board Member of Port Robinson/Gore Bay Reserves Board. I am a practical forward thinker and will listen to and advocate for what the community want.
