

CHRISTCHURCH CITY COUNCIL

Election of Mayor

Paulus TELFER

<http://www.future-nz.org>

Dear voter, I Paulus Telfer am an unregistered Attorney-McKenzie court friend that works for free. I am also recognized proven governmental corruption fighter, and I have been involved in several skirmishes with lawyers acting inappropriately for pecuniary gain, and charging huge amounts for doing absolutely nothing. I have decided to do something about protecting “the two million forgotten people”, by starting up my own political party “Future New Zealand” to protect their interests, for they do not figure in anyway here in New Zealand. If elected, I will end corruption and property rip-offs, amalgamate the local police into the council, and unleash “community crime fighters”. Since there is abundant aquifer water, there will be no water metering charges; the resurfaced tale about seawater entering the aquifers is all erroneous. Thanking you for your vote.
