As Mayor or a member of Council I would not fund boy racers. More accountable information required on the internet so all New Zealand District Health Boards, Councils, and Government agencies display complaints, costs, problems, waiting lists and proposed solutions that can be seen publicly in order to improve services. The costs of all administration needs to be reduced dramatically in order to focus expenditure on solutions. Whistle blowers, public, staff and Government require to see this information, in order to understand what action is needed. Health questionnaires would allow people who are interested in answering on-line questions improve their knowledge. Doctors would become more informed so more targeted treatments to cure the problems could be used. Information normally given to doctors often during short visits may be insufficient. I value myself and others seeking mutual respect. Disappointed and disillusioned Labour seat and Green Party voter for Parliament. Thanks.
