

CHRISTCHURCH CITY COUNCIL

Election of TWO (2) Councillors for the Hagley/Ferrymead Ward

Rod CAMERON

Independent for Common Sense

As a local resident for 58 years I have a clear understanding of local issues and will strive to achieve positive outcomes with good value for your rates dollar by ensuring common sense spending on core infrastructure. Rates increases, if any, need to be restricted to the current rate of inflation. My upbringing was in a hard working, large, working class family which knew the value of every dollar spent. I am passionate about our city and am well prepared to work extremely hard full-time if elected. I have a background in sports administration at a top level and have been active in cricket, rugby, fishing, and rugby refereeing and have previously owned and operated my own business. Previously elected as a community board member at the 2001 election gives me valuable experience. Local experience does count. Please feel free to phone me on 332-3011 to discuss any issue.
