

CHRISTCHURCH CITY COUNCIL

Election of TWO (2) Councillors for the Fendalton/Waimairi Ward

Sue MCKENZIE

Independent Citizens

I have lived in Fendalton - Waimairi all my life and worked in the City for the last 30 years. My background is in health, retail, fashion, business and education. Currently I operate a small business and lecture in business planning, management, creativity and design.

My vision is of a city that is clean, safe and encourages business growth and job opportunities. Responsible economic management and sensible planning for resources, infrastructure and future needs are vital in developing an environmentally and economically sound city.

Christchurch needs competent Councillors who operate professionally, with business experience and acumen and have the strength to ensure that those responsible for running the City perform in a democratic, accountable and fiscally responsible manner.

To the Council table I will bring leadership and management skills, commonsense, professional integrity, energy and enthusiasm to help create a better place for all to live and work in.
