

CHRISTCHURCH CITY COUNCIL

Election of TWO (2) Councillors for the Burwood/Pegasus Ward

Wayne Euan FINDLEY

Independent

Wayne Findley, MBA (Canterbury) is 56, and married to Madeleine.

Several challenges loom for Council: possible economic downturn, ratepayer pressure for quality spending and a better environment.

Council needs to work with its communities, to encourage them to become more resilient, and use less energy. How?

Measure and manage aspects (traffic congestion, energy density) which are absent from the current LTCCP.

Council has to maintain focus on the infrastructures, both in terms of the 'hard' engineering side (roads, drains, bridges, water, sewer), and the 'soft' side - strong communities, which can handle the challenges that they and the Council will jointly face.

I have worked through such challenges before, in my local government and private sector careers. I have a distaste for capital-P Politics, believing instead that communities are the foundation-stone of cities. With no outside business interests, if elected, I would make Council my sole focus.
