CHRISTCHURCH

SUBMISSION: RE LONG TERM COUNCIL COMMUNITY PLAN

We wish to ~~talk to the points of our submission~~

1/ One month is not long enough for community groups to receive and properly digest information.

We recommend 6-8 weeks minimum period for such important long term community plans.

2, VOLUME ONE Pg 33

We recommend Avonside Drive should become a green corridor from the city to the sea.

3, VOLUME TWO Pg 5 - How will City Council contribute to Outcomes?

a) Promoting Energy efficiency by taking traffic away from Avonside Drive and sharing traffic with other streets more welcoming and more able to handle traffic like wide Worcester Street avoiding polluting, congestive, expensive delays.

b) Refuse minimisation and disposal

We would like to see some disposal provision for batteries.

c) Streets and Transport

We would like to see a comprehensive traffic plan, with full consultation with community from the East Ch Ch.

We believe this will assist in the desired outcomes.

Yours faithfully  
CHRIS LEE
