| Your Submission: | Do you have any comments on the major projects in our Draft Community Plan? |
| | I think that the expansion of the bus exchange should coincide with extensive bus priority measures on the main routes into the exchange. |
| | Do you have any comments on groups of activities (The activities and services the Council provides?) |
| | The provision of libraries should ensure these are readily accessible to all Christchurch residents, therefore special consideration of lower socio-economic groups should also be a consideration in the provision of library services. |
| | Do you have any other comments or suggestions you want to make? |
| | "Less congestion which is measured by the average travel time for a 10km trip and a lower dissatisfaction with general road congestion" pg18 of summary - I am disappointed that this is an indicator- the focus should be on the most efficient movement of goods and people, (rather than vehicles) this would therefore consider other modes as well. |
