Your Submission:	Do you have any comments on the major projects in our Draft Community Plan?
	<p>I believe funding for a flat water facility is incredibly important for the city and its people and should be reintroduced to the LTCCP</p> <p>In an era where water based sports such as kayaking are having participation numbers greater than ever before, the demand on current facilities (Kerrs Reach) are reaching crisis point with regular accidents occurring on the river due to congestion and weed tangling.</p> <p>Kerrs reach is also a sub standard facility with ongoing weed infestation problems (which adds to the river congestion) and the water quality does not meet the Ministry for the Environment Contact Recreation Standard.</p>
	Do you have any comments on groups of activities (The activities and services the Council provides?)
	Do you have any other comments or suggestions you want to make?
