Lake Isaac

Hi

I am a multisport athlete who regularly uses Kerrs Reach for training. I am also an ex-rower who understands the importance of having access to a quality facility for training.

In my mind, Kerrs Reach has three main issues; Weed build up, congestion, and tidal range. The creation of an appropriately managed facility will address all three of these: proper facilities to ensure weed is not transferred to/from other facilities/venues, more space that can be more easily segregated, no tide any more!

My wife and I fully support the new facility and firmly believe it will bring significant benefit to the Chch sporting community.

Regards

Andrew Bull
