Your Submission:

As a multisport enthusiast I whole heartily believe in this as a benefit not only to sports organisations but to Christchurch & NZ as a potentially world class venue. And not to mention the future generation who I firmly believe applaud if such a decision were made to go ahead. I know all concerned would make sure that every facet of the design & implementation of the lake would be acted on with the highest degree of thought, planning, integrity, thoughtfulness, safety, environmentally & passion.
