Address:	8 Aylsham Lane Styx Christchurch 8005
Your Submission:	Do you have any comments on the major projects in our Draft Community Plan?
	I wish to express as a ratepayer the need to have a flat water recreation facility put back onto the councils LTCCP. As our sport of Triathlon and Duathlon grows so does the pressure on our facilities. Christchurch is desperately in need of a facility which we can host national and international standard events, and Lake Issac offers a rare chance to have such a facility right on our door step. Without such a facility, Christchurch may never host a national champinoship event. As Lake Hood, Lake Karapario and Penrith in Sydney have successsfully illustrated, man made lakes and the infrastructure which surround provide fantastic facilities for triathlon. To this end I ask that the council strongly considers putting the Lake Isaac back onto the LTCCP.
	Do you have any comments on groups of activities (The activities and services the Council provides?)
	Do you have any other comments or suggestions you want to make?
	Lake Isaac will provide a venue for many passive water sports and also the surrounding area will provide for other uses such as cross country running etc to use a safe facility that does not require traffic management. The proposed siting of Lake Isaac will provide a facility close to our schools so that parents are not required to transport their children many kilometers to train and compete.
