Your Submission:	<p>Submission on Traffic</p> <p>The LTCCP makes little mention of the long term consequences of increasing fuel costs and peak oil</p> <p>The Council should be promoting far less dependency on motor vehicles</p> <p>Vehicles pollute the air 356 days of the year. palls of pollution were visible over the city late summer during a spell of warm weather - wood burners can not be blamed!</p> <p>Streets and Transport budget is \$140 - 180 million which includes major road works. No where in the world have more roads solved traffic congestion they have made it worse!.</p> <p>Maintain our current roads to a high standard and upgrade areas to improve safety but do not build more roads.</p> <p>Developers of outlying housing areas must be made to provide cycle and pedestrian ways, and contribute financially to the roading/ public transport system to get new residents to work.</p> <p>Yes -- increase on/off street parking charges</p> <p>Yes -- continue but at a much faster rate the proposed cycleways and pedestrian works. Already more people are biking to work</p> <p>Bus priority corridors are essential</p> <p>Yes -- to the Bus Exchange expansion</p> <p>More 40km school zones</p> <p>Jennifer Sandblom 43 Huntsbury Ave Christchurch</p>
