Questions

1 Do you have any comments on the major projects in our draft Our Community Plan? page number 18

I feel the money to be spent on a new bus exchange would be better investigating a whole transport system ie not only buses but light rail from Rolleston & Rangiora and trams to get in & out and around the city. If an exchange has to be built please consider land near the old Railway station on Mulhouse Ave to be near to transport people from a light Rail system into the city & surrounds

2 Do you have any comments on groups of activities (the activities and services that Council provides)? page number 15 18

Saving money by closing our suburban pools some libraries and the very important mobile library is a great injustice to the community. - Reading is the foundation of all learning - Learning to swim in a suburban pool should be every child / persons right in our island nation. and to be able to do that at a pool near your home is essential. It doesn't make sense to close suburban pools without putting a ^{new} local facility in place. Small suburbs around town should not suffer with the loss of pools & libraries

3 Do you have any other comments or suggestions you want to make? page number

A rate increase is not justified if you decide to take these essential services away, and neither should good productive land be used for lifestyle blocks or housing or industrial building these should go out on to the lighter land which surrounds our city. What ever happened to our Green belt. Swallowed up by? *greed?*
