<b>Your Submission:</b>	<p>LTCCP SUBMISSION - Parks and Gardens</p> <p>Refer Page 14 Summary Draft LTCCP. Botanic Gardens and Tree Renewal.</p> <p>I support maintenance of the Botanic Gardens with succession planting of trees there and other Council-controlled areas - subject to consideration of the expected lifetimes of the trees and their ability to withstand the anticipated rise in temperatures and increased dryness associated with global climate change.</p> <p>Also consider leaf clearing costs with street plantings, these are likely to become more of a burden as fuel costs increase so choice of trees becomes more significant.</p> <p>Botanic Garden Information Centre positioning should be in association with traffic flow through the Museum when the remodelling there is completed.</p> <p>Bruce Tulloch      11 Trafford Street Christchurch 8005. Ph 359 9625 Individual submission. No speaking time required.</p>
