Your Submission:	Do you have any comments on the major projects in our Draft Community Plan?
	Decisions sought Council recommit to the (not-watered down) Biodiversity Strategy and adequately fund actions that have been identified as essential to the future of our biodiversity. Indigenous biodiversity is absolutely essential to the identity of our city and it's place in the world. As an example, Christchurch is the best place in New Zealand to see our native Scaup. That is because of the native plantings along the river Avon. The new native plantings at the fire fighters park near the central fire station are just stunning.
	Do you have any comments on groups of activities (The activities and services the Council provides?)
	Do you have any other comments or suggestions you want to make?
